Promise of beauty

The strongest power on earth is natural beauty. This is a mysterious creative force that controls very subtle matters – there are unquestionable inborn drivers in our heart that urge us to get literally stunned, overwhelmed by magnificent primordial nature views, that make a kid susceptible to beauty from the first days of life and induce a person to prefer beautiful things by intuition.

The anthology of natural beauty presented in Marc & André Spring-Summer 2025 Lingerie Collection PROMISE OF BEAUTY is full of soft pastel semi-tones, lyrical vibes and brisk melodical originality, bright golden-brown chords, intricate transitions and interplay of rich textures.

To enjoy harmony every day, in any environment – can we live up to it? How to catch every single precious moment at one with nature, to be a prima star amidst the city symphony, to radiate calm confidence in any situation and to be able to create our own mood?

All you need is to choose the correct lingerie for underlying the aspirations of the day and to enjoy comfort while being sure that the beautiful curves are delicately accented. Nice lingerie and imagination will do all the job: any ordinary day can turn into a romantic story because fashion and fancy can create a unique unforgettable style and the most agreeable atmosphere.

Be easy and gorgeous, enjoy beauty in all its manifestations, be fearless and charming every day – and let the whole world get breathless in admiration!

Embracing

SEIZE THE UNSEIZABLE

The EMBRACING series is as light and pure as a sincere expression of warm feelings. The elastic lace of Vanilla Ice Cream colour with a neat gold pattern paired with a delicate stripe mesh fabric is an irresistibly tactile combination. The thin gold accessory rings complete the intrigue. So touchingly embraceable – and gently hugging the body curves!

Devotion

A POETIC DEDICATION

The DEVOTION series continues developing the main theme by means of a palette of the essential natural nude shades: the multicoloured elastic lace with a delicate colour transition from Ivory to a light pink in the essential parts of the pattern is exceptionally expressive. The playful nature of models is elegantly supported by triple spaghetti inserts on shoulder straps, decorative belts and corset clasps and hooks. We treasure every beautiful, though fleeting, dream!

Divine

BEYOND COMPARISON

The DIVINE series captivates not only with the shimmering minimalism of silk, but even more with the undeniable self-sufficiency of its texture. The clear lines of the exquisite cut emphasise the beauty of the shining flowing fabric, elastic transparent lace creates a playful balance worthy of Goddess herself. Again, there prevails the noble monochrome: the light silver peony shade of silk blend is clearly the king of fashion preferences for more than one season ahead! A very transparent hint!

Gorgeous

TOTALLY AWESOME

The romantic GORGEOUS series happily proves that every woman will certainly find her own beige: the vibrant combination of white elastic lace and brushed powder tone microfiber fantastically suits the spring and summer season, impressive and easy to read as it is. A sort of light creamy dessert with marshmallows – there is always a place for simple pleasures!

Dreamer

SWEET TEMPTATION

Cream dreams in the DREAMER series come true not without the special expressive means so much loved by Marc & André designers: the luxurious elastic lace – of the creamiest colour! – trimmed with soft edging and narrow elastic tape with gold thread running at its length, miniature rose gold accessories.

Narrow straps, flirty bows and fancy ties – what a generous sweet-style feast of the impeccable taste!

Fearless

POWER OF NATURE

The fascinating FEARLESS series has been created by the designers of Marc & André inspired by the most beautiful phenomena of the natural world. Fashion and imagination make a stunning symbiosis: together they produce mesmerising designs by combining a bold snake-skin printed shiny mesh, lurex elastic bands and elegant snake shape accessories, transparent mesh inserts and the spectacular chocolate-coloured edging.

Extremely luxurious and snake-style graceful – both in form and content!

Fearless

MAGNIFICENT CENTURY

Our FEARLESS theme got its development through an exquisite line of silk nightdresses, kimonos, shorts and tops with snake print.

The snake print with ombre effect is especially expressive and beautiful on silk, but there is always an allusion to wild life instincts and an implied provocation.

Professional skills will always beat any fear! Don't be afraid to be irresistible with the Marc & André silk collection!

Framed Beauty

A CUT ABOVE THE REST

Sparkling splashes seem to freeze at the surface of the light fabric of the FRAMED BEAUTY series: the tender mesh of Champagne shade sparkles with a multitude of tiny glitters! The designers have improvised with the cut to their heart's content – and as a result, the princess seams are emphasised with satin edgings to support the flirty corsetry theme. This lingerie is a true gem!

The series Lace Skin is ideal in terms of following the body curves, providing outstanding comfort and support. Simple but elegant and softly feminine, noble and royal-style enough for the natural beauty to be emphasised but not outshined.
